

Navigation Aid

This file has been included to aid you in navigating this CD ROM.

There are six Coal Proceedings volumes in total included in on this CD ROM. Coal 2005, plus five additional volumes Coal 2004, 2003, 2002, 2001 and 1998.

Following this page is a complete list of the Contents pages from each of the Proceedings. This document can be used to search for the paper you may be looking for using Adobe Acrobat. Either click on the 'binoculars' icon located on the menu bar or select 'Edit, Find' on the menu bar and then type the word/name you are searching for, Acrobat will display each time the selected word appears in the document, you may need to search more than once using 'find again', you then may view the selected paper by using the main CD ROM screen structure – click on the Proceedings year at the top of the main CD ROM screen and then navigate your way to the paper you wish to view.

We suggest it may be useful to print this entire document to assist you in finding the paper you are looking for. Please note that this file does not contain 'links' to individual papers, it is an information file only – you will need to use the main CD ROM screen structure to open the .pdf file you wish to view.

The Coal 1998 Proceedings is a scanned document for inclusion on this CD ROM as the original electronic files were not available; owing to this, the quality of the files are generally much lower than the other papers included on this CD ROM.

We hope you will find this CD ROM to be a valuable reference source on this topic.

Contents

Geology – Geotechnical

| | | |
|--|--|----|
| <i>The Effect of Resin Thickness on Bolt-Grout-Concrete Interaction in Shear</i> | N Aziz, J Hossein and M S N Hadi | 3 |
| <i>Application of Computer Modelling in the Understanding of Caving and Induced Hydraulic Conductivity About Longwall Panels</i> | W J Gale | 11 |
| <i>The Value of Early Geotechnical Assessment in Mine Planning</i> | C Hanson, D Thomas and R Gallagher | 17 |
| <i>Coal Pillar Design Criteria for Surface Protection</i> | D Hill | 31 |
| <i>Numerical Modelling of Undermined River Valleys — A Case Study</i> | W Keilich, J W Lee, N Aziz and E Baafi | 39 |
| <i>Practical Considerations in Longwall Support Behaviour and Ground Response</i> | T P Medhurst | 49 |
| <i>Chain Pillar Design — Can We?</i> | R Seedsman, H Jalalifar and N Aziz | 59 |
| <i>Loading Mechanics of the ‘Can’ and Implications for Improved Strength and Stiffness Properties</i> | G Tarrant | 63 |
| <i>Skew Roof Deformation Mechanism in Longwall Gateroads — Concepts and Consequences</i> | G Tarrant | 73 |

Management and Human Resources

| | | |
|---|------------------------------------|-----|
| <i>Management of Change — The Transformation of UK Coal Project 105</i> | K J Irving | 89 |
| <i>Reducing the Variability in Dragline Operator Performance</i> | G Lumley | 97 |
| <i>Application of Tagging Systems for Personnel and Vehicle Access Control</i> | L Marlborough, S Barrow and D Kent | 107 |
| <i>Understanding Organisational and Personal Behaviours to Sustain High Productivity and Safety</i> | M Roberts | 113 |

Occupational Health and Safety

| | | |
|--|------------|-----|
| <i>Health Tracking Project — The Development of a National Framework for Managing Occupational Illness and Disease in the Australian Minerals Industry</i> | C Bofinger | 123 |
| <i>Management Systems for Hazardous Exposures — Evidence of Failure and Opportunities for Success</i> | B Ham | 129 |

| | | |
|--|--------------|------------|
| <i>Taking Stock of Safety</i> | G L McDonald | 137 |
| <i>Legislation, Litigation and Liability</i> | A J See | 143 |

Open Cut Mining

| | | |
|---|---|------------|
| <i>Wear of Dragline Wire Ropes</i> | D Dayawansa, M Kuruppu, F Mashiri and H Bartosiewicz | 153 |
| <i>'Keep the Cream' — Reconciling Coal Recovery at BMA Goonyella Riverside</i> | S N Johnston and M J Kelleher | 161 |
| <i>Quantification of Opencast Potential Within the Waikato Coalfields Using Pit Optimisation Software</i> | A Prentice | 169 |
| <i>Coming of Age for Low-Density Explosives</i> | J Rock, A Maurer and N Pereira | 175 |

Spontaneous Combustion

| | | |
|---|---|------------|
| <i>R₇₀ Relationships and Their Interpretation at a Mine Site</i> | B B Beamish, D G Blazak, L C S Hogarth and I Jabouri | 183 |
| <i>Factors Affecting Hot Spot Development in Bulk Coal and Associated Gas Evolution</i> | B B Beamish and I Jabouri | 187 |
| <i>Spontaneous Combustion in Open Cut Coal Mines — Recent Australian Research</i> | J N Carras, S Day, A Saghafi and O C Roberts | 195 |
| <i>Results of Self-Heating Tests of Australian Coals Conducted in a 16 m³ Reactor</i> | F Clarkson | 201 |
| <i>The Use of Electronic Nose Devices for Coal Self-Heating Detection</i> | F Clarkson | 209 |
| <i>The Ability of Current Gas Monitoring Techniques to Adequately Detect Spontaneous Combustion</i> | D Cliff | 219 |
| <i>Spontaneous Combustion and Simulation of Mine Fires and Their Effects on Mine Ventilation Systems</i> | A D S Gillies, H W Wu and D Humphreys | 225 |
| <i>A Review of Spontaneous Combustion Incidents</i> | B Ham | 237 |
| <i>Computer Animation of Hot Spot Development in Bulk Coal as an Aid for Training Coal Miners</i> | M Hancock, M S Kizil and B B Beamish | 243 |
| <i>Anatomy of a Heating and Assessment of Critical Self-Heating Parameters</i> | D Humphreys | 249 |
| <i>CFD Modelling of Goaf Gas Migration to Improve the Control of Spontaneous Combustion in Longwalls</i> | T X Ren and R Balusu | 259 |
| <i>Detection of Underground Spontaneous Combustion of Coal With Surface-Based Radon Technique at Dartbrook Mine</i> | S Xue and N Winkelmann | 265 |

Sustainability and Environment and Mining Contractors and Maintenance Management

| | | |
|--|---------------------------------------|------------|
| <i>Economic Returns From Environmental Problems — Breeding Salt and Stress Tolerant Eucalypts for Carbon Sequestration, Salinity Abatement and Commercial Forestry</i> | G Dale | 271 |
| <i>Environmental Reclamation Practice in a Brazilian Coal Mine — An Economical Approach</i> | J C Koppe, A Grigorieff and J F Costa | 277 |

Ventilation and Fire

| | | |
|---|-------------------------------------|------------|
| <i>Status of Outburst Research at the University of Wollongong</i> | N Aziz, F Sereshki and D Bruggemann | 283 |
| <i>The Demonstration of Electronic Systems to Assist in the Management of a Significant Incident</i> | D Cliff and R Moreby | 291 |
| <i>Real-Time Risk Analysis and Hazard Management</i> | G Einicke and G Rowan | 299 |
| <i>Research Needs in Regard to Design, Performance Criteria, Construction, Maintenance Assessment and Repair of Coal Mine Seals</i> | R Gallagher | 307 |
| <i>Development of Innovative Goaf Inertisation Practices to Improve Coal Mine Safety</i> | T X Ren, R Balusu and P Humphries | 315 |

Training and Health Research

| | | |
|---|-------------------------|------------|
| <i>Mining Cadetship — Sustainability Through Training</i> | P Jorgensen and A Smith | 323 |
|---|-------------------------|------------|
