

Contents

Geology – Geotechnical

<i>The Effect of Resin Thickness on Bolt-Grout-Concrete Interaction in Shear</i>	N Aziz, J Hossein and M S N Hadi	3
<i>Application of Computer Modelling in the Understanding of Caving and Induced Hydraulic Conductivity About Longwall Panels</i>	W J Gale	11
<i>The Value of Early Geotechnical Assessment in Mine Planning</i>	C Hanson, D Thomas and R Gallagher	17
<i>Coal Pillar Design Criteria for Surface Protection</i>	D Hill	31
<i>Numerical Modelling of Undermined River Valleys — A Case Study</i>	W Keilich, J W Lee, N Aziz and E Baafi	39
<i>Practical Considerations in Longwall Support Behaviour and Ground Response</i>	T P Medhurst	49
<i>Chain Pillar Design — Can We?</i>	R Seedsman, H Jalalifar and N Aziz	59
<i>Loading Mechanics of the ‘Can’ and Implications for Improved Strength and Stiffness Properties</i>	G Tarrant	63
<i>Skew Roof Deformation Mechanism in Longwall Gateroads — Concepts and Consequences</i>	G Tarrant	73

Management and Human Resources

<i>Management of Change — The Transformation of UK Coal Project 105</i>	K J Irving	89
<i>Reducing the Variability in Dragline Operator Performance</i>	G Lumley	97
<i>Application of Tagging Systems for Personnel and Vehicle Access Control</i>	L Marlborough, S Barrow and D Kent	107
<i>Understanding Organisational and Personal Behaviours to Sustain High Productivity and Safety</i>	M Roberts	113

Occupational Health and Safety

<i>Health Tracking Project — The Development of a National Framework for Managing Occupational Illness and Disease in the Australian Minerals Industry</i>	C Bofinger	123
<i>Management Systems for Hazardous Exposures — Evidence of Failure and Opportunities for Success</i>	B Ham	129

<i>Taking Stock of Safety</i>	G L McDonald	137
<i>Legislation, Litigation and Liability</i>	A J See	143

Open Cut Mining

<i>Wear of Dragline Wire Ropes</i>	D Dayawansa, M Kuruppu, F Mashiri and H Bartosiewicz	153
<i>'Keep the Cream' — Reconciling Coal Recovery at BMA Goonyella Riverside</i>	S N Johnston and M J Kelleher	161
<i>Quantification of Opencast Potential Within the Waikato Coalfields Using Pit Optimisation Software</i>	A Prentice	169
<i>Coming of Age for Low-Density Explosives</i>	J Rock, A Maurer and N Pereira	175

Spontaneous Combustion

<i>R₇₀ Relationships and Their Interpretation at a Mine Site</i>	B B Beamish, D G Blazak, L C S Hogarth and I Jabouri	183
<i>Factors Affecting Hot Spot Development in Bulk Coal and Associated Gas Evolution</i>	B B Beamish and I Jabouri	187
<i>Spontaneous Combustion in Open Cut Coal Mines — Recent Australian Research</i>	J N Carras, S Day, A Saghafi and O C Roberts	195
<i>Results of Self-Heating Tests of Australian Coals Conducted in a 16 m³ Reactor</i>	F Clarkson	201
<i>The Use of Electronic Nose Devices for Coal Self-Heating Detection</i>	F Clarkson	209
<i>The Ability of Current Gas Monitoring Techniques to Adequately Detect Spontaneous Combustion</i>	D Cliff	219
<i>Spontaneous Combustion and Simulation of Mine Fires and Their Effects on Mine Ventilation Systems</i>	A D S Gillies, H W Wu and D Humphreys	225
<i>A Review of Spontaneous Combustion Incidents</i>	B Ham	237
<i>Computer Animation of Hot Spot Development in Bulk Coal as an Aid for Training Coal Miners</i>	M Hancock, M S Kizil and B B Beamish	243
<i>Anatomy of a Heating and Assessment of Critical Self-Heating Parameters</i>	D Humphreys	249
<i>CFD Modelling of Goaf Gas Migration to Improve the Control of Spontaneous Combustion in Longwalls</i>	T X Ren and R Balusu	259
<i>Detection of Underground Spontaneous Combustion of Coal With Surface-Based Radon Technique at Dartbrook Mine</i>	S Xue and N Winkelmann	265

Sustainability and Environment and Mining Contractors and Maintenance Management

<i>Economic Returns From Environmental Problems — Breeding Salt and Stress Tolerant Eucalypts for Carbon Sequestration, Salinity Abatement and Commercial Forestry</i>	G Dale	271
<i>Environmental Reclamation Practice in a Brazilian Coal Mine — An Economical Approach</i>	J C Koppe, A Grigorieff and J F Costa	277

Ventilation and Fire

<i>Status of Outburst Research at the University of Wollongong</i>	N Aziz, F Sereshki and D Bruggemann	283
<i>The Demonstration of Electronic Systems to Assist in the Management of a Significant Incident</i>	D Cliff and R Moreby	291
<i>Real-Time Risk Analysis and Hazard Management</i>	G Einicke and G Rowan	299
<i>Research Needs in Regard to Design, Performance Criteria, Construction, Maintenance Assessment and Repair of Coal Mine Seals</i>	R Gallagher	307
<i>Development of Innovative Goaf Inertisation Practices to Improve Coal Mine Safety</i>	T X Ren, R Balusu and P Humphries	315

Training and Health Research

<i>Mining Cadetship — Sustainability Through Training</i>	P Jorgensen and A Smith	323
